## Installation
```

```
|
| Copy this plugin to your plugins directory.
|
| ## Configuration
|
| This plugin supports the following configuration options:
|
| \`\`\`json
| {
|   // Add configuration options here
| }
| \`\`\`
|
| ## Usage
|
| This plugin provides the following features:
|
| - Feature 1
| - Feature 2
|
| ## License
|
| ${manifest.license || 'MIT'}
| `.trim();
|         await fs.writeFile(readmePath, readmeContent);
